PROFESSIONAL SUMMARY

Full Stack Developer with 2+ years of experience delivering scalable, high-performance web applications using React.js, Next.js, Node.js, and modern database systems (MongoDB, SQL). Proficient in building REST APIs, implementing secure authentication flows, and optimizing user interfaces. Adept in integrating AI-driven features using OpenAI APIs. Currently working as a freelancer and actively seeking full-time opportunities to contribute to dynamic product teams.

TECHNICAL SKILLS

- **Frontend:** React.js, Redux, Next.js, TypeScript, JavaScript (ES6+), HTML5, CSS3, Tailwind CSS
- **Backend:** Node.js, Express.js, RESTful APIs, Authentication (JWT, OAuth, Auth.js, Clerk)
- **Databases & ORM:** MongoDB, MySQL, MSSQL Server, PostgreSQL, Drizzle ORM, Prisma ORM,
- **Tools:** Git, Postman, VS Code, PM2, IIS, Docker (Basic), ASP.NET (Basic), Github Co-pilot

EDUCATION & CERTIFICATION

- **Bachelor of Commerce (B.Com)** - *Prahladrai Dalmia Lions College, Malad* | 2018
- **ASP.NET & MSSQL Server Certification** - *Lakshya Institute of Technical Training* | 2022

PROFESSIONAL EXPERIENCE

Freelance - Full Stack Developer (*Apr 2025 – Present*)

- Develop end-to-end web applications using React.js, Node.js, and Express.js.
- Build secure backend APIs with comprehensive authentication and authorization systems.
- Implement role-based access control (RBAC) and multi-tenant architecture patterns.
- Utilize PM2 for Node.js application deployment and process management.
- Integrate third-party APIs and services to enhance application functionality.
- Deliver projects with emphasis on clean code practices and performance optimization.

BCOD Web Solution Pvt. Ltd. – Full Stack Developer (Dec 2022 – Dec 2024)

- Developed responsive web applications using React.js, Next.js, and Node.js.
- Built and deployed RESTful APIs with secure authentication using Auth.js.
- Integrated payment gateways (Razorpay, PhonePe) for seamless transaction processing.
- Managed server deployments on IIS and optimized application performance.
- Worked with multiple database systems including MSSQL Server and MySQL.
- Handled client interactions and requirements gathering for project development.
- Maintained ASP.NET-based web applications and collaborated with cross-functional teams.

KEY PROJECTS

1. Insurance Premium Payment Portal - React.js, Node.js, Express.js, MSSQL Server

- Developed comprehensive payment gateway integration system for insurance company clients.
- Built secure payment processing functionality enabling users to pay insurance premiums online.
- Implemented React.js frontend with intuitive user interface for seamless payment experience.
- Created robust backend APIs using Node.js and Express.js for payment processing.
- Integrated with MSSQL Server for secure transaction data storage and management.
- Handled client requirements and delivered solution meeting business specifications.

2. Senior Citizen Service Booking Platform - Next.js, Supabase, Auth.js, Tailwind CSS.

- Developed service booking platform for senior citizens to request at-home healthcare services.
- Implemented secure user authentication and authorization using Auth.js.
- Created responsive UI components with Tailwind CSS for optimal user experience.
- Integrated real-time database operations using Supabase for doctor consultations, physiotherapy, and caretaker services.

3. Digital Book Exchange System - Node.js, Express.js, MySQL

- Built backend APIs for digital platform facilitating book ownership tracking and sharing.
- Designed efficient database schemas and implemented secure data handling practices.
- Created RESTful endpoints for user management, book cataloging, and transaction processing.
- Implemented data validation and error handling for robust application performance.
